# WELCOME

This year's Ideas Festival theme 'Connect' aims to encourage new and lasting links between our city communities: connections between business, local authorities, schools, Anglia Ruskin University, Writtle College and voluntary groups. The theme brings together scientists and creatives, people from different cultures, young and old. We hope the festival will do this by showcasing and encouraging participation in the wonderful work happening locally. Many of our events provide opportunities to learn new skills and contribute to the life of our city.

Highlights include the spectacular Engineering Fair at Anglia Ruskin University, talks from Matthew Taylor, Chief Executive of the Royal Society of Arts; Nick Alston, Police and Crime Commissioner for Essex as well as the latest news from e2v regarding the New Horizon's mission. There are also inspirational delights from Chelmsford historians, musicians, urbanists, academics, beekeepers and baristas. The Ideas Festival is a Changing Chelmsford initiative.

## Changing Chelmsford is:

- A loose network of people enthusiastic about Chelmsford and its potential.
- A social innovation ideas incubator stimulating new ways of looking at the city.
- A forum bringing experts and lay-people together to mobilise initiatives.

This programme booklet was designed and compiled pro bono by the Anglia Ruskin University Design Collective: Jeff Bray, Becky Lockwood and Daniel Tubi.

Attention connects us to the world, it shapes and defines our experience every time. In this 'Digital Age', technology captures our attention and disrupts our connection to the world around us. In this workshop we will explore how to harness the power of our attention and reclaim our sensory experience, to re-energise ourselves and reconnect to the people and places around us, beyond our screens and digital devices.
